ABOUT ME

Full-stack software engineer with hands-on experience building Flask and React.js applications, from REST API integration and secure authentication to AI-powered features using LangChain and Neo4j RAG. Currently developing backend services for Medsy, an AI-powered medical education platform.

WORK EXPERIENCE

Full-Stack Developer Intern— Blue Silicon Infotech Pvt. Ltd. August 2026 – Present
Medsy — AI-Powered Medical Education Platform

- Developed modular Flask backend services and integrated them with React frontend applications through REST APIs and WebSockets.
- Implemented JWT authentication and role-based access control.
- Worked on AI-powered content generation using LangChain and Neo4j-based retrieval-augmented generation (RAG).
- Developed real-time application features using Flask-SocketIO.
- Contributed to modular architecture, testing, version control, and CI/CD practices.

Software Engineering Intern — Thoughtflair Technology, Chennai August 2025

- Developed a React.js frontend integrated with Spring Boot REST APIs.
- Practised Agile development and Git-based collaboration.

Web Development Intern — Oasis Infobyte, Chennai June – August 2024

- Developed three responsive web projects using HTML, CSS, and JavaScript.

Joint Secretary — IEEE Student Branch, Jeppiaar Engineering College 2023 – 2024

- Coordinated technical workshops for more than 100 students and supported team communication and event logistics.

PROJECTS

- **Smart Student Portal —** Developed a responsive student dashboard using React.js, Vite, JavaScript, and REST APIs, with CRUD operations, routing, and role-based access.
- **Restaurant Ordering Website —** Built a mobile-friendly food ordering website using HTML5, CSS3, Flexbox, CSS Grid, and JavaScript.

EDUCATION

B.E. Electronics & Communication Engineering — Jeppiaar Engineering College, Chennai 2022 – 2026 | CGPA: 7.5
HSC (12th) — KEREN Matriculation Higher Secondary School 2021 – 2022 | 88%
SSLC (10th) — VIVEKANANDA Matriculation Higher Secondary School 2019 – 2020 | 86%

CERTIFICATIONS

- **Microsoft Learn:** AI Concepts, Cloud Computing, Azure Data Fundamentals
- **Cisco Networking Academy:** Introduction to Modern AI

ADDITIONAL INFORMATION

- **Technologies:** Python, Java, C, Perl, Next.js, Microservices, SQL, MongoDB, Neo4j, Redis, LangGraph, GitHub, Linux
- **Languages:** English (Professional), Tamil (Native)
- Open to relocation across India. Available for immediate joining.
